

8 KILLED, 36 INJURED IN EXPLOSION

LOSS ESTIMATED AT TWO MILLION

Burning Oil and Gas Thrown Two Hundred Yards When Stills Burst.

(By the Associated Press)
CHICAGO, July 5.—Eight men are dead today, 36 injured, 10 so seriously that they may die, and property damage unofficially estimated at two million dollars was the result yesterday of an explosion in the Standard Oil Company's refining plant at Whiting, Ind.

Two huge field stills burst, the walls enclosing them crumbled, and burning oil and gas was thrown in a radius of two hundred yards, trapping the night force. Five men burned to death and three died later in Chicago hospitals. Most of those injured were caught in the shower of flame but others were crushed by falling brick and steel walls of the stills. Excessive pressure and a tiny leak were probable causes of the explosion advanced by those familiar with the operation of the stills which were filled with crude oil under pressure in the manufacture of gasoline.

The first still after exploding fell against the second causing it to let go also. The fire swept the wreckage so that it was some time before some of the bodies could be recovered.

Doctors and nurses from the surrounding towns were summoned and the injured rushed to Chicago hospitals. Officials would not estimate the loss but the stills are understood to have cost about two million dollars.

49 State Prisoners at McAlester to be on Pardon Schedule

(By the Associated Press)
McALESTER, Okla., July 5.—Expiration pardons for 49 inmates of the state penitentiary here, to be issued during the month of July, have been recommended to Governor Robertson by Fred C. Switzer, warden. It was announced today at the penitentiary. Thirty-three of the recommendations deny full rights of citizenship, with 6 recommended for all rights.

Pardons granted by the governor during the month of June totaled nine, it was announced, although all of them were not for inmates of the state prison.

Including in the number to be released during July are men who have served from 5 to 15 years. Four women inmates, 3 of them with 1 year terms, and the other with two, will be released without rights of citizenship. One woman will be given liberty with full rights.

Judge Overrules Motion to Quash Baseball Charge

(By the Associated Press)
CHICAGO, July 5.—Judge Hugo Friend today overruled the motion to quash the general conspiracy indictment against 18 former baseball players and alleged gamblers in connection with the 1919 world series scandal. The defense moved immediately that the state be required to elect which of the 12 counts would be pressed in the trial.

Judge Friend denied the defense plea that the state be required to elect which counts the trial would proceed on and ordered the case to proceed under the full indictment. The defense then asked for a bill of particulars.

The state announced that Judge Landis, high commissioner of baseball, be called on to refute the claims advanced by the defense that baseball players are not under contract to their clubs during world series games. The state attorney also said that he would ask Judge Friend to hold night sessions in order to speed up the trial.

U. S. Department of Agriculture, Weather Bureau

WASHINGTON, July 5.—Forecast for the period July 5, 1921, to July 9, 1921, inclusive. West Gulf States: Occasional thunder-showers, with temperature above normal at the beginning of the week and about normal thereafter.

Upper Mississippi and lower Missouri Valleys: Showers and cooler at the beginning of the week followed by generally fair weather near the end of the week, when higher temperature and scattered showers are probable.

Southern Rocky Mountain and Plateau Region: Partly cloudy with local thunder-showers during the first half of the week and generally fair weather during the latter half; the temperature will be near the normal.

NAVAL CRUISERS SENT TO MEXICO

Ships Ordered to Guard the American Interests Will Await Orders.

(By the Associated Press)
WASHINGTON, July 5.—The cruiser Cleveland and the gunboat Sacramento have been ordered to Tampico, Mexico, to protect American interests in the event that they be jeopardized because of labor trouble growing out of the present situation, it was said at the navy department.

OIL DEPRESSION THROWS MANY INTO IDLENESS (By the Associated Press)
WASHINGTON, July 5.—The Sacramento will reach Tampico today from Galveston. The Cleveland, ordered from Christobal, Canal Zone, will probably not reach Tampico before Thursday. Both vessels are assigned to the American special service squadron in South and Central American waters.

It was explained by the navy department that the unemployed are constantly increasing in and around Tampico because of the depression in the oil industry there due to the new tax system and that incipient riots and increasing troubles resulted.

It was said, however, that the vessels would take no action until a more serious situation arose. Reports from Tampico yesterday that several ships of the Atlantic fleet had arrived in Tampico were declared by the navy department as premature. It was stated that no American warcraft had arrived there and assumed that the reports resulted from the receipt of the news at Tampico that the Cleveland and Sacramento had been ordered to that place.

Jury Dismissed in Trial of Man Held on Murder Charge

(By the Associated Press)
WICHITA, Kan., July 5.—After having been in the jury room five nights and four days, the jury in the trial of B. W. A. Henson, charged with the killing of his seventeen year old crippled stepson, Walter Shafer, five years ago, was discharged today by Judge Hall, the vote standing 8 to 4 for conviction, it was reported, and the jury declared they no hope of returning a verdict.

This was the third hung jury during the five trials of Henson on two charges of murder of his wife and stepson. He was acquitted of the wife killing charge on the fourth trial and the trial just ended is the first on the charge of killing his stepson.

The case will be retried it is said.

Smith Will Explain Graveling Plans at Town Meet Tonight

A meeting will be held tonight at 8 o'clock at the court house for the purpose of getting property owners together to discuss the proposed plan for graveling streets of the city. At this time W. S. Smith street commissioner will explain fully his plan, submit prices for the equipment and give other information.

Definite steps will be taken on the matter at this time. "The property owners can take it or leave it," Mr. Smith said today. "I have studied the thing out, listened to suggestions, and made my plans to meet them as far as possible. I would not attempt to do this if I was not confident it was the best thing possible for the improvement of the streets.

"If property owners are not interested enough to come out tonight and take part in the adoption or discarding of my plan, I don't think they should hold me responsible for what takes place. The meeting will start at 8 o'clock sharp. I would be pleased to see a large number out," he concluded.

WHAT'S A FEW BILLION BETWEEN FRIENDS IN A LITTLE GAME

PLANS UNDER WAY FOR HEROES' ARCH

Lions Club and Normal Will Build Memorial for Service Men.

Definite steps were taken last week by members of the Lions club and a committee appointed from the Normal school to secure the Memorial Gateway for the entrance to East Central State Normal grounds. Money was raised two years ago by popular subscription to pay for the building of a Memorial Arch at the entrance of the school to be dedicated to Ada boys and others of this section who served in the army and navy during the World War.

As an insufficient amount was donated to pay for the original proposed gateway, another was submitted by the architect. However, no action had been taken on the matter until recently. Several architects over the state are preparing plans by which a gateway can be built for the amount in the bank, \$2,985.96, and the best plan submitted will be accepted. It is expected that it will be several days before plans are acted upon.

As soon as the drawing is selected a contract will be let and work started immediately. By fall the gateway will be completed. This gateway is badly needed, by the school, according to school authorities and it will serve as a reminder of the boys who saw service. This will be the first memorial of any kind for service men of this district.

Revival Meeting Is Started By Morris At Second Baptist

Rev. C. C. Morris, pastor of the First Baptist church here, opened yesterday a two week's revival at the Oak Avenue Baptist church. Preaching will be held every morning from 10 to 11 o'clock and prayer services will start every evening at 7:30. Song services will start at 8 o'clock and preaching will follow. The meeting is being held in the old tabernacle, near the church.

For his text last night, Rev. Morris selected Psalms 8:5-6 "Wilt thou not revive us again that thy people may rejoice. In his sermon he said "God has no use for the idle Christian. He cannot use the proud hearted, stiff-necked, and self centered man or woman. All must come in the same way. The most cultured woman must come like a Mary Magdalene, confessing her sins."

MONEY IS PAID IN FOR COTTON BELT

Lions Club Adopts Measure to Aid in Securing Good Roads.

That Ada had raised the necessary funds for marking the Cotton Belt Highway through her territory was the information reported to the committee which was appointed a fortnight ago to look into this matter. The money for the erection of this gateway was paid in by citizens of Ada and school children throughout this Normal district, the money to be used in the erection of a memorial gateway, honoring the students of the Normal who served in the World War.

H. E. Miller, head of the Boy Scouts, reported that the club house at the city lake had been completed and a formal reception would be held there a week from today. The house was erected, mostly by the scouts, at a cost of approximately \$600.

Short talks were made by those just received as new members, N. B. Stall, W. D. Little, Dr. Sam McKeel, Austin Brown and M. M. Harwell. Guests who made short talks were Judge J. F. McKel and Mr. Russell of Bonham, Texas.

Members promised aid in getting labor to work on the rough stretch of road near Lawrence. The county, the Cement Company and the Good Road Motor club are co-operating in building this stretch.

NOTICE MASONS.

Ada Lodge No. 119, A. F. & A. M., will meet in called communication tonight at 7:00 o'clock for the purpose of work in Master's Degree. Visitors welcome.—John Thrasher, W. M.

RESERVE OFFICIAL SAYS BANKS SHOULD ADVERTISE

ATLANTA, Ga.—Approval of advertising by banks was voiced before the Associated Advertising Clubs of the World by M. R. Wellborn, governor of the Atlanta Reserve bank. "I like to see the banks advertise, especially our member banks," he said. "I have noticed that advertising increases deposits and when deposits are increased no politician can automatically increase."

PLAN FUNERAL OF WAR VET AT ROFF

Ada Members of Legion are Called to Help Bury First Returned.

All former service men and especially members of the American Legion were requested to attend the funeral services of Floyd Bert, first Pontotoc boy killed in service to be returned for burial, to be held at the Roff cemetery tomorrow afternoon at 2:30 in a call received today by local Legionnaires from W. O. Pratt, congressman from this district.

Bert's funeral will be conducted by former service men, probably in uniform, and all ex-soldiers, sailors and marines from Ada, together with the band, have been asked to turn out so full military rites can be carried out. Representative Pratt called to Ada this morning and filed his request with Sam Schlenberg, member of the local legion post.

If possible a big aggregation of war veterans will be mobilized here tonight to go on the night train, it is believed, and more probably will go by cars or on the early afternoon train tomorrow afternoon. Detailed arrangements for the funeral are not known here.

Change Is Announced For Train Schedules on Santa Fe Railway

One train, number 449, offering combined passenger and freight service over the Santa Fe, between Purcell and Lehigh, will be put off and another similar train, number 450, which has been meeting 449, will now carry all traffic of the two trains but with a curtailed schedule, according to notice given this morning by the local Santa Fe agent.

This change of schedule will not effect Ada traffic but will be of consequence to Stonehill and Lehigh, it is understood.

No. 450, which has been leaving Purcell on Monday will run to Lehigh as usual but will not be met by No. 449. The same train will make the return trip next day, according to the revised schedule. The train runs to Lehigh as no. 450 but will go back as no. 449, making only a one way trip each day.

DEVEREUX MURDER TRIAL IS OPENED

Two Women Nursed Jurist After He Was Beaten Is Charge.

(By the Associated Press)
TULSA, July 5.—Mrs. Jesse James and Goldie Morgan's trial begins in the district court here today before Judge Cole. They are charged with the murder of Judge John Devereux, former member of the supreme court commission of Oklahoma and law partner of former Congressman McGuire. Judge Devereux was found on the night of May 9 in a hotel where he had been removed from his own room in an apartment house, unconscious and in a dying condition. He had a wound on his head and was apparently suffering from an overdose of drugs.

Mrs. James and Morgan are said to have been the nurses caring for him and after the death of Judge Devereux they were formally charged with murder. Devereux never regained consciousness but died in his own room, where he had been taken after his discovery in the hotel room by police officers.

The state charges that the injury came from a blunt instrument and that poison was used. The charges were amended after the preliminary trial in which they were bound over for trial without bond.

Assistant County Attorney John Goldsberry and W. L. Coffey and E. J. Lundy, who represent the county bar association are conducting the prosecution. County Attorney Seaver still B. N. Martin will represent the defendants who will be tried together, it was announced.

One feature which the state will stress is the disappearance of a \$10,000 note on which \$2,000 had been paid, which Judge Devereux held from N. S. McGuire, the state claiming that the nurses had other property and also contended that the nurses had secured \$1,300 on checks made out by them but signed by the Judge during the two weeks they cared for him. While the Judge was reputed to have had some money and property, a search of the banks revealed only two rubber bands. The state has called close to 40 witnesses, many of them neighbors of the jurist.

The impaneling of a jury is well under way this afternoon. The state is insisting on a life sentence for the women. When some of the jurors voiced voluntary scruples against the death penalty, Assistant County Attorney John Goldsberry, examiner for the state, asked them if their scruples would extend to the life imprisonment and when they said they did not, permitted them to remain unchallenged.

Willard Says He Is Willing Now to Take Dempsey

(By the Associated Press)
LAWRENCE, Kan., July 5.—Jess Willard is willing to meet Jack Dempsey again he said today on his farm near here.

The ex-champion added that he was even anxious to get at the champion to recapture the world's heavyweight championship which he lost two years ago at Toledo.

Jess said that it was a lucky punch in the first round that ruined him.

"I have led the simple life and I'm in splendid shape, too," he added. "I will need four months for training and conditioning, then I will be ready for Jack Dempsey."

Better be safe than sorry. Advertise in the News Want Ad columns. Quite an idea, eh?

TRADE TRIPS WILL START TOMORROW

The business men of Ada will start out Wednesday morning to advertise Ada and the first big trades day to be held here next Monday, July 11. Every person who has the interest of the town at heart is urged to go or send one of his employees on this trip. The trip the first day will take in Center, Maxwell, Vanoa, Stratford, Sulphur, Fitzhugh, Hickory, Roff, and probably some small towns between. Other trips will follow Thursday and Friday.

"It takes effort to build a town," said M. C. Wilson, chairman of the arrangement committee, this morning. "Now is the time when we must act if we expect our city to keep on growing as it has been in the past. We want every business possible represented."

"The automobiles will leave at 7:30 on the dot from Main and Broadway. The schedule has been arranged and no time can be lost. It is essential, therefore, that every car be at the starting place on time and take off without delay."

Mr. Wilson urges that every citizen, whether he has been seen by the committee or not, to arrange to go. This is not an individual affair, but has been arranged by the Merchants Association for the benefit of the entire town. Every merchant, professional man, teacher or anyone else who has the welfare of the city at heart is urged to go. It is everybody's affair.

Some extra seats will be available, but Mr. Wilson does not know how many. If a person does not have car, he should be present at 7:30 in the morning and there will likely be room for him.

The band will go along to furnish music.

The Fort Worth Record has changed hands again. This morning newspaper is in a great field, and we hope that its period of usefulness is just beginning.

The Fort Smith Southwest American of July 1 shows a likeness of Kerensky. Why bother the dead? Let him rest in peace, wherever he may be. He has taken his fling at heading a nation and failed miserably.

Who started that joke about Arkansas? Well, the laugh is on him. Arkansas is now pouring forth liquid gold not in one steady stream, but in several.

Thus far we have not heard of as many Jess Willards and Jack Dempseys as we have of Teddy Roosevelts, Woodrow Wilsons and Warren Hardings. The man may like to see a prize fight, but he does not want his son to be a prize fighter.

The tariff has almost ceased to be a party question. Democratic southerners are asking for tariff protection on many agricultural and manufactured articles. Gradually the American people are realizing that tariff is a matter of economics and should be handled in an efficient way by efficient officers. It is not a thing to be put up and put down by a bunch of lawmakers who have never studied the matter seriously for many hours at a time.

GOLD CROP OF THE WORLD

Three Democrats voted for the peace resolution: Shields of Tennessee, Walsh of Massachusetts and Watson of Georgia. All of the Republican senators who were present voted in favor of the resolution. President Harding signed the measure and then the agony was over. Peace has been re-established between the United States and Germany and Austria-Hungary. Secretary of Commerce, Herbert Hoover predicts that Germany will buy 2,700,000 bales of American cotton in the next ten months, and just now the cotton market is an uppermost topic in the sections of the republic where the fleecy staple is produced. In pre-war years cotton was the gold crop of America—that is, it brought the money from abroad, new money, money that was needed in the channels of trade.—Fort Worth Record.

AN ATHLETIC CLUB

The News has heard many citizens of Ada recently express a desire for an athletic club in town. Some want golf links, some want a country club, some want an indoor gymnasium equipped with the necessary apparatus for games and individual exercise. Others still want a club which will foster clean boxing, wrestling and such sports as are engaged in and seen in the larger cities. It would be advisable to have a court large enough for basketball games, making possible a city basketball league each winter.

There is no doubt that a club of this sort would add to the life of the city and permit the participants to enjoy better health. We are too much indoors of late. Seldom does the city man give his body the outdoor exercise that nature intended. If we cannot have golf links, why not build more tennis courts and arouse interest in this game? It is true tennis is too strenuous for many, but for those who like it and have the endurance there is no game with more interest and none which calls into play more muscles.

There is little doubt, in the opinion of the News, that an athletic club here would do well. We should like to see some enterprising citizens start the move.

TAFT'S APPOINTMENT

President Harding has made mistakes and will make others, but he covered himself in glory when he appointed ex-President William Howard Taft Chief Justice of the United States Supreme Court. There may be better men for the place, but they are not in public life.

Chief Justice Taft is an ideal American, the kind who do things in an American way. A lawyer, a judge, a member of the cabinet, president, teacher and lecturer, now he will end his life of service on the highest judicial bench in the world.

Judge Taft is not as brilliant as Wilson, not as erratic and forceful as Roosevelt, not a great executive. As president he was the victim of conflicting forces which made it impossible for him to be popular. As time passes, however, it is realized more and more that his administration was anything but mediocre.

The opinions which Mr. Taft will hand down will be masterpieces of literature. He is sincere, fair, and a scholar of law.

We believe we join ninety percent of the voters in congratulating President Harding on his choice, the country on getting so able a jurist at the head of its greatest legal body, and Taft on an opportunity to round out his life in this important place. Like his predecessor, whom he himself appointed to the chief justice's bench, he is a man of the entire country, unfettered by prejudice and willing to be of most service to the greatest number of people.

MYSTERY OF THE ANIMATED SCARECROW OF CORN HOLLOW IN 6 REELS

The Evening News

Comments given below do not necessarily reflect the opinion of the News. In fact, oftentimes the opinion expressed is directly opposite to that held by the News. The opinions are given, however, because this is a newspaper.

Dancing and Thinking

Muskogee Phoenix: The Prince of Monaco has done this country some service by pointing out a reassuring truth regarding the status of the national soul.

He sees, as others do, that in America as elsewhere, there is more light-headedness in evidence, more frivolity and vice of all sorts. But along with it he observes a striking contrast. The war, he says, while making the silly people sillier, "has made the serious-minded persons more serious." Along with the frivolous wasters there are "other people hankering after science and learning more than ever before."

Thus, while the effect of war has been to shake up more froth in society, it has also shown more solid contents than people were formerly aware of.

The important thing, as an American editor remarks, is how far the one effect balances the other. The frivolity has certainly been more obvious the last year or two. Many moralizers have been almost driven to think that the results of the war were altogether bad, but good is coming out of the conflict, after all. Even now the solid contents of society are making themselves felt. The sober, forward-looking part of the nation and mankind may yet control things, and prove their control so plainly that even the frivolous will see the drift and respect it.

In The Oil Fields

"In order that the creditors and the stockholders of the Gilliland Oil company may profit to the last farthing I am turning back the great properties I purchased the other day and will give the three receivers, Messrs. Hurley, Phillips, and Markham, an opportunity to reassemble the properties and work out for the benefit of all concerned every dollar there is in it," so said J. B. Foster, and in saying this he must have fully realized that he was sacrificing more than a million dollars, to say the least, and this for the honor of Tulsa, and the industry of which he is a member.

When Mr. Foster brought this property something like a week ago he bought it when it is doubtful if there was another man in Tulsa who could have raised the great amount of ready cash required and when he knew that the crisis demanded a radical remedy as against the danger of panic among banking houses, not in this town but in towns surrounding Tulsa where there was much of the Gilliland paper waiting to be negotiated. He did a great deed at that time and now is entitled to even a greater commendation by turning this property back because in his own hands it would shortly be worth many times its present value.

It is doubtful if in all the Mid-Continent field there is a property so well equipped or better adapted to producing oil than the Gilliland Oil company's holdings at Homer, Bull Bayou and Haynesville. Mr. Foster had been a partner in the Homer and Bull Bayou properties until a year ago last February and thus knows better than anyone the

sacrifices he is making in turning back these properties which he has just purchased, paid for and taken over. He has visited them all and there is nothing anywhere to detract in any way from their great value. He is making a sacrifice that will be talked about as long as oil is produced anywhere.

Judge Sharp, who is one of the big lawyers of Oklahoma, and for nine years a justice of the supreme court, where he made a great record and was for two years chief justice, who is one of Mr. Foster's counsel, speaking of the sacrifice Mr. Foster is making, says: "In a practice extending over 32 years, I have never known a more magnanimous and praiseworthy action on the part of any man under like circumstances. The entire transaction involving the purchase of the Louisiana and Arkansas properties of the Gilliland Oil company, in so far as the Foster Oil company is concerned, was free of the slightest imputation of fraud either actual or constructive and the splendid offer of Mr. Foster, entailing upon him as it does the great financial sacrifice, is worthy of a high place in the annals of the oil industry wherever oil men congregate."

It was announced by the receivers of the Gilliland Oil company that hereafter there will be nothing concerning the management of the company's affairs given out, unless signed by all three of the receivers. This ought to effectually shut off some of alleged reports that have been printed reflecting on the integrity of pretty much everyone involved. It was the only thing to do.—Tulsa World.

The Doan Oil company is preparing to resume operations at once at their well in section 29-4-5, where work has been shut down for some time, it was reported today. Harry Myers, field superintendent of the company, arrived in Ada yesterday and went to the well this morning. Drilling was discontinued at about 1030 feet when operations stopped.

A drowsy, half-sick, discouraged feeling is caused by a torpid liver and impurities in the stomach and bowels. Prickly Ash Bitters is a prompt and efficient remedy. Men who work need its cleansing and stimulating effect. Price \$1.25 per bottle. Sold by Gwin & Mays Drug Co.

Want to buy a home? Turn to the want ads.

Transcontinental well in the NE

NE of section 14-5-4, was reported this morning to be drilling at 1875 feet with an 8-inch bit and making good progress.

Estimated production in the fields of the Mid-Continent at the close of last week was as follows: North Louisiana, 67,000 barrels; Arkansas, 39,000 barrels; North Texas, 193,935 barrels; Kansas, 101,000 barrels; Oklahoma, outside of Cushing, Shramrock and Healdton, 228,000 barrels; Cushing and Shramrock, 26,500 barrels; Healdton and Hewitt, 64,000 barrels; total 719,435 barrels, a gain of 7,690 barrels in comparison with the preceding week.

The estimated daily production of heavy gravity oil in the Gulf Coast field was 79,515 barrels.

Oil and Gas Journal.

DEMPSEY AT PLAY AFTER BIG FIGHT

Jack Holds World Title for First Time and Frolics Like Schoolboy.

(By the Associated Press)

NEW YORK, July 5.—That old toy, the heavyweight championship of the world, has been enjoyed by several, but this is the first time Jack Dempsey, its present holder, has had an opportunity to enjoy it. With the abandon of a school boy he is frolics about New York, vacationing with all the enthusiasm of a youngster with a new pair of boxing gloves.

Since Jack stepped into the ring at Toledo two years ago and unhooked the title from Jess Willard he has been a busy man. There has been no time for play in his program, with training, for bouts to defend his title and busy in motion pictures or theatrical enterprises.

Now that the last contender in the person of Georges Carpentier, has been kept from annexing the title, he has cast worry to the winds and is playing. He will continue this in and about New York for a few days but in about a week will be on board a train westward bound. In Salt Lake City, Utah, his destination, Mrs. Celia Dempsey, his mother is waiting for him.

Dempsey declared that he was anxious to get back home and especially anxious to see his mother.

A coated tongue, bad breath, dizziness and a clogged condition in the bowels can be quickly relieved by using Prickly Ash Bitters. It is a man's remedy for such ailments. Price \$1.25 per bottle. Sold by Gwin & Mays Drug Co.

Frames Should Fit The Face

Correctly fitting frames are almost as important as correctly ground lenses. Therefore we take particular pains to make sure that the frames fit the face perfectly.

The center of the glasses should come exactly opposite the pupils of the eyes. The glasses should not be too wide or too narrow. The bridge should fit the nose so well that wobbling will be impossible.

We are experts in the proper fitting of glasses and our skill is at your service. If the glasses you now wear do not fit perfectly bring them to us for adjustment.

8 KILLED, 36 INJURED IN EXPLOSION

LOSS ESTIMATED
AT TWO MILLION

Burning Oil and Gas Thrown
Two Hundred Yards
When Stills Burst.

(By the Associated Press)
CHICAGO, July 5.—Eight men are dead today, 36 injured, 10 so seriously that they may die, and property damage unofficially estimated at two million dollars was the result yesterday of an explosion in the Standard Oil Company's refining plant at Whiting, Ind.

Two huge field stills burst, the walls enclosing them crumbled, and burning oil and gas was thrown in a radius of two hundred yards, trapping the night force. Five men burned to death and three died later in Chicago hospitals. Most of the injured were caught in the shower of flame but others were crushed by falling brick and steel walls of the stills. Excessive pressure and a tiny leak were probable causes of the explosion advanced by those familiar with the operation of the stills which were filled with crude oil under pressure in the manufacture of gasoline.

The first still after exploding fell against the second causing it to let go also. The fire swept the wreckage so that it was some time before some of the bodies could be recovered.

Doctors and nurses from the surrounding towns were summoned and the injured rushed to Chicago hospitals. Officials would not estimate the loss but the stills are understood to have cost about two million dollars.

49 State Prisoners
at McAlester to be
on Pardon Schedule

(By the Associated Press)
MCALISTER, Okla., July 5.—Expiration pardons for 49 inmates of the state penitentiary here, to be issued during the month of July, have been recommended to Governor Robertson by Fred C. Switzer, warden. It was announced today at the penitentiary. Thirty-three of the recommendations deny full rights of citizenship with 8 recommended for all rights.

Pardons granted by the governor during the month of June totaled nine, it was announced, although all of them were not for inmates of the state prison.

Including in the number to be released during July are men who have served from 5 to 15 years. Four women inmates, 3 of them with 1 year terms, and the other with two, will be released without rights of citizenship. One woman will be given liberty with full rights.

Judge Overrules
Motion to Quash
Baseball Charge

(By the Associated Press)
CHICAGO, July 5.—Judge Hugo Friend today overruled the motion to quash the general conspiracy indictment against 18 former baseball players and alleged gamblers in connection with the 1919 world series scandal. The defense moved immediately that the state be required to elect which of the 12 count would be pressed in the trial.

Judge Friend denied the defense plea that the state be required to elect which counts the trial would proceed on and ordered the case to proceed under the full indictment. The defense then asked for a bill of particulars.

The state announced that Judge Landis, high commissioner of baseball, be called on to refute the claims advanced by the defense that baseball players are not under contract to their clubs during world series games. The state attorney also said that he would ask Judge Friend to hold night sessions in order to speed up the trial.

Await Orders.

(By the Associated Press)
WASHINGTON, July 5.—The cruiser Cleveland and the gunboat Sacramento have been ordered to Tampico, Mexico, to protect American interests in the event that the jeopardized because of labor trouble growing out of the present situation. It was said at the navy department.

OIL DEPRESSION THROWS
MANY INTO IDLENESS
(By the Associated Press)
WASHINGTON, July 5.—The Sacramento will reach Tampico today from Galveston. The Cleveland, ordered from Christobal, Canal Zone, will probably not reach Tampico before Thursday. Both vessels are assigned to the American special service squadron in South and Central American waters.

It was explained by the navy department that the unemployed are constantly increasing in and around Tampico because of the depression in the oil industry there due to the new tax system and that incipient riots and increasing troubles resulted.

It was said, however, that the vessels would take no action until a more serious situation arose. Reports from Tampico yesterday that several ships of the Atlantic fleet had arrived in Tampico were declared by the navy department as premature. It was stated that no American warcraft had arrived there and assumed that the reports resulted from the receipt of the news at Tampico that the Cleveland and Sacramento had been ordered to that place.

Jury Dismissed in
Trial of Man Held
on Murder Charge

(By the Associated Press)
WICHITA, Kan., July 5.—After having been in the jury room five nights and four days, the jury in the trial of B. W. A. Henson, charged with the killing of his seventeen year old crippled stepson, Walter Shafer, five years ago, was discharged today by Judge Hall, the vote standing 8 to 4 for conviction. It was reported, and the jury declared they no hope of returning a verdict.

This was the third hung jury during the five trials of Henson on two charges of murder of his wife and stepson. He was acquitted of the wife killing charge on the fourth trial and the trial just ended is the first on the charge of killing his stepson.

The case will be retried it is said.

Smith Will Explain
Graveling Plans at
Town Meet Tonight

A meeting will be held tonight at 8 o'clock at the court house for the purpose of getting property owners together to discuss the proposed plan for graveling streets of the city. At this time W. S. Smith street commissioner will explain fully his plan, submit prices for the equipment and give other information.

Definite steps will be taken on the matter at this time. "The property owners can take it or leave it," Mr. Smith said today. "I have studied the thing out, listened to suggestions, and made my plans to meet them as far as possible. I would not attempt to do this if I was not confident it was the best thing possible for the improvement of the streets."

"If property owners are not interested enough to come out tonight and take part in the adoption or discarding of my plan, I don't think they should hold me responsible for what takes place. The meeting will start at 8 o'clock sharp. I would be pleased to see a large number out," he concluded.

WHAT'S A FEW BILLION BETWEEN FRIENDS IN A LITTLE GAME

PLANS UNDER WAY
FOR HEROES' ARCH

Lions Club and Normal Will
Build Memorial for
Service Men.

Definite steps were taken last week by members of the Lions club and a committee appointed from the Normal school to secure the Memorial Gateway for the entrance to East Central State Normal grounds. Money was raised two years ago by popular subscription to pay for the building of a Memorial Arch at the entrance of the school to be dedicated to Ada boys and others of this section who served in the army and navy during the World War.

As an insufficient amount was donated to pay for the original proposed gateway, another was submitted by the architect. However, no action had been taken on the matter until recently. Several architects over the state are preparing plans by which a gateway can be built for the amount in the bank, \$2,955.96, and the best plan submitted will be accepted. It is expected that it will be several days before plans are acted upon.

As soon as the drawing is selected a contract will be let and work started immediately. By fall the gateway will be completed. This gateway is badly needed by the school, according to school authorities and it will serve as a reminder of the boys who saw service. This will be the first memorial of any kind for service men of this district.

Revival Meeting Is
Started By Morris
At Second Baptist

Rev. C. C. Morris, pastor of the First Baptist church here, opened yesterday a two week's revival at the Oak Avenue Baptist church. Preaching will be held every morning from 10 to 11 o'clock and prayer services will start every evening at 7:30. Song services will start at 8 o'clock and preaching will follow. The meeting is being held in the old tabernacle, near the church.

For his text last night, Rev. Morris selected Psalms 8:5-6 "What thou not revive us again that thy people may rejoice. In his sermon he said "God has no use for the idle Christian. He cannot use the proud hearted, stiff-necked, and self centered man or woman. All must come in the same way. The most cultured woman must come like a Mary Magdalene, confessing her sins."

MONEY IS PAID IN
FOR COTTON BELT

Lions Club Adopts Measure
to Aid in Securing
Good Roads.

That Ada had raised the necessary funds for marking the Cotton Belt Highway through her territory was the information reported to the committee which was appointed a fortnight ago to look into this matter. The money for the erection of this gateway was paid in by citizens of Ada and school children throughout this Normal district, the money to be used in the erection of a memorial gateway, honoring the students of the Normal who served in the World War.

H. E. Miller, head of the Boy Scouts, reported that the club house at the city lake had been completed and a formal reception would be held there a week from today. The house was erected, mostly by the scouts, at a cost of approximately \$600.

Short talks were made by those just received as new members, N. B. Strall, W. D. Little, Dr. Sam McKel, Austin Brown and M. M. Howell. Guests who made short talks were Judge J. F. McKee and Mr. Russell of Bonham, Texas.

Members promised aid in getting labor to work on the rough stretch of road near Lawrence. The county, the Cement Company and the Good Road Motor club are co-operating in building this stretch.

NOTICE MASONS.
Add Lodge No. 119,
A. F. & A. M., will
meet in called communication tonight at 7:00 o'clock for the purpose of work in Master's Degree. Visitors welcome.—John Thrasher, W. M.

RESERVE OFFICIAL SAYS
BANKS SHOULD ADVERTISE

ATLANTA, Ga.—Approval of advertising by banks was voiced before the Associated Advertising Clubs of the World by M. R. Wellborn, governor of the Atlanta Reserve bank.

"I like to see the banks advertise, especially our member banks," he said. "I have noticed that advertising increases deposits and when deposits are increased the power of the banks is automatically increased."

PLAN FUNERAL OF
WAR VET AT ROFF

Ada Members of Legion are
Called to Help Bury
First Returned.

All former service men and especially members of the American Legion were requested to attend the funeral services of Floyd Bert, first Pontotoc boy killed in service to be returned for burial, to be held at the Roff cemetery tomorrow afternoon at 2:30 in a call received today by local Legionnaires, from W. O. Pratt, congressman from this district.

Bert's funeral will be conducted by former service men, probably in uniform, and all ex-soldiers, sailors and marines from Ada, together with the band, have been asked to turn out so full military rites can be carried out. Representative Pratt called to Ada this morning and filed his request with Sam Schlenberg, member of the local legion post.

If possible a big aggregation of war veterans will be mobilized here tonight to go on the night train. It is believed, and more probably will go by cars or on the early afternoon train tomorrow afternoon. Detailed arrangements for the funeral are not known here.

Change Is Announced
For Train Schedules
on Santa Fe Railway

One train, number 449, offering combined passenger and freight service over the Santa Fe, between Purcell and Lehigh, will be put off and another similar train, number 450, which has been meeting 449, will now carry all traffic of the two trains but with a curtailed schedule, according to notices given this morning by the local Santa Fe agent.

This change of schedule will not effect Ada traffic but will be of consequence to Stonewall and Lehigh, it is understood.

No. 450, which has been leaving Purcell on Monday will run to Lehigh as usual but will not be met by No. 449. The same train will make the return trip next day, according to the revised schedule. The train runs to Lehigh as no. 450 but will go back as no. 449, making only a one way trip each day.

DEVEREUX MURDER
TRIAL IS OPENED

Two Women Nursed Jurist
After He Was Beaten
Is Charge.

(By the Associated Press)
TULSA, July 5.—Mrs. Jesse James and Goldie Morgan's trial begins in the district court here today before Judge Cole. They are charged with the murder of Judge John Devereux, former member of the supreme court commission of Oklahoma and law partner of former Congressman McGuire. Judge Devereux was found on the night of May 9 in a hotel where he had been removed from his own room in an apartment house, unconscious and in a dying condition. He had a wound on his head and was apparently suffering from an overdose of drugs.

Mrs. James and Morgan are said to have been the nurses caring for him and after the death of Judge Devereux they were formally charged with murder. Devereux never regained consciousness but died in his own room, where he had been taken after his discovery in the hotel room by police officers.

The state charges that the injury came from a blunt instrument and that poison was used. The charges were amended after the preliminary trial in which they were bound over for trial without bond.

Assistant County Attorney John Goldsberry and W. L. Coffey and E. J. Lundy, who represent the county bar association are conducting the prosecution. County Attorney Seaver and H. B. N. Martin will represent the defendants who will be tried together, it was announced.

One feature which the state will stress is the disappearance of a \$10,000 note on which \$2,000 had been paid, which Judge Devereux held from N. S. McGuire, the state claiming that the nurses had other property and also contended that the nurses had secured \$1,300 on checks made out by them but signed by the Judge during the two weeks they cared for him. While the Judge was reported to have had some money and property, a search of the banks revealed only two rubber bands. The state has called close to 40 witnesses, many of them neighbors of the jurist.

The impaneling of a jury is well under way this afternoon. The state is insisting on a life sentence for the women. When some of the jurors voiced "voluntary" scruples against the death penalty, Assistant County Attorney John Goldsberry, examiner for the state, asked them if their scruples would extend to the life imprisonment and when they said they did not, permitted them to remain unchallenged.

Officials continued reluctant to disclose the direct effect of the resolution or of the steps that would be taken toward a restoration of diplomatic relations with Germany. The withdrawal of troops from the Rhine district is pointed to as a question for the president to decide.

It is said, however, that congress has clearly indicated in the peace resolution its intention to reserve to the United States all rights guaranteed in either the armistice agreement or in the Treaty of Versailles.

Counsel Objects to
Women as Jurors on
Mrs. Kaber's Trial

(By the Associated Press)
CLEVELAND, July 5.—With one woman in the new venire of 100 ordered to appear in Judge Maurice Bernon's court this morning, attorneys for Mrs. Eva Katharine Kaber prepared to continue the fight to prevent women from sitting on the jury to try Mrs. Kaber on a charge of plotting the murder of the invalid husband, Daniel F. Kaber, two years ago.

The trial was resumed today after a five-day recess since last Wednesday when the original venire was exhausted and the counsel for the defense insisted on the three days grace in which they are entitled under the Ohio statutes. Four women and five men have been tentatively accepted as jurors.

The last woman on the Kaber jury, Mrs. Nora Burg, was excused this afternoon by Attorney Corrigan.

Willard Says He
Is Willing Now
to Take Dempsey

(By the Associated Press)
LAWRENCE, Kan., July 5.—Jesse Willard is willing to meet Jack Dempsey again he said today on his farm near here.

The ex-champion added that he was even anxious to get at the champion to recapture the world's heavyweight championship which he lost two years ago at Toledo.

Jess said that it was a lucky punch in the first round that ruined him.

"I have led the simple life and I'm in splendid shape, too," he added, "I will need four months for training and conditioning, then I will be ready for Jack Dempsey."

Better be safe than sorry. Advertise in the News Want Ad column. Quite an idea, eh?

SEEK TO RESTORE
GERMAN RELATION

Withdrawal of Troops from
Rhine District Is
Question.

(By the Associated Press)
WASHINGTON, July 5.—The state department and other administration officials will examine war legislation, decrees and wartime agreements today with the object of determining the advisability of supplementing by proclamation the congressional resolution ending the state of war with Germany and Austria, which was signed Saturday by President Harding.

Secretary Hughes is expected to confer with President Harding on the return of the executive from Raritan, New Jersey.

Without assuming to indicate the course the president might take, some officials believe that a proclamation is not essential, although as a safeguard it might be advisable.

Officials continued reluctant to disclose the direct effect of the resolution or of the steps that would be taken toward a restoration of diplomatic relations with Germany. The withdrawal of troops from the Rhine district is pointed to as a question for the president to decide.

It is said, however, that congress has clearly indicated in the peace resolution its intention to reserve to the United States all rights guaranteed in either the armistice agreement or in the Treaty of Versailles.

Expect Conferences
to Bring Cessation
of Irish Hostility

(By the Associated Press)
LONDON, July 5.—Conference between the prime minister, Mr. Lloyd-George, Earl Middleton, Mr. Lloyd-George, Earl Middleton, Mr. Lloyd-George, Earl Middleton, who conferred in Dublin with Eamon De Valera, the Irish republican leader, on Monday, and Sir James Craig, Ulster premier, and the arrival of General Smuts, the South African premier, in Dublin, were the developments today in the Irish political situation, following yesterday's conference in Dublin.

Well informed circles in London hoped that the conference between Mr. Valera and the south unionists may presage a tacit cessation of provocative acts by the crown forces and the Irish republican army pending the outcome of Mr. Lloyd-George's efforts to bring De Valera and Sir James Craig together in a conference.

TRADE TRIPS WILL START TOMORROW

The business men of Ada will start out Wednesday morning to advertise Ada and the first big trades day to be held here next Monday, July 11. Every person who has the interest of the town at heart is urged to go or send one of his employees on this trip. The trip the first day will take in Center, Maxwell, Vancos, Stratford, Sulphur, Fitzhugh, Hickory, Roff, and probably some small towns between. Other trips will follow Thursday and Friday.

"It takes effort to build a town," said M. C. Wilson, chairman of the arrangement committee, this morning. "Now is the time when we must act if we expect our city to keep on growing as it has been in the past. We want every business possible represented."

"The automobiles will leave at 7:30 on the dot from Main and Broadway. The schedule has been arranged and no time can be lost. It is essential, therefore, that every car be at the starting place on time and take off without delay."

Mr. Wilson urged that every citizen, whether he has been seen by the committee or not, to arrange to go. This is not an individual affair, but has been arranged by the Merchants Association for the benefit of the entire town. Every merchant, professional man, teacher or anyone else who has the welfare of the city at heart is urged to go. It is everybody's affair.

Some extra seats will be available, but Mr. Wilson does not know how many. If a person does not have a car, he should be present at 7:30 in the morning and there will likely be room for him.

The band will go along to furnish music.

U. S. Department of Agriculture, Weather Bureau

WASHINGTON, July 5.—Forecast for the period July 5, 1921, to July 9, 1921, inclusive. West Gulf States: Occasional thunder-showers, with temperature above normal at the beginning of the week and about normal thereafter.

Upper Mississippi and lower Missouri Valleys: Showers and cooler at the beginning of the week followed by generally fair weather near the end of the week, when higher temperature and scattered showers are probable.

Southern Rocky Mountain and Plateau Region: Partly cloudy with local thunder-showers during the first half of the week and generally fair weather during the latter half; the temperature will be near the normal.

The Fort Worth Record has changed hands again. This morning newspaper is in a great field, and we hope that its period of usefulness is just beginning.

The Fort Smith Southwest American of July 1 shows a likeness of Kerensky. Why bother the dead? Let him rest in peace, wherever he may be. He has taken his fling at heading a nation and failed miserably.

Who started that joke about Arkansas? Well, the laugh is on him. Arkansas is now pouring forth liquid gold not in one steady stream, but in several.

Thus far we have not heard of as many Jess Willards and Jack Dempseys as we have of Teddy Roosevelts, Woodrow Wilsons and Warren Hardings. The man may like to see a prize fight, but he does not want his son to be a prize fighter.

The tariff has almost ceased to be a party question. Democratic southerners are asking for tariff protection on many agricultural and manufactured articles. Gradually the American people are realizing that tariff is a matter of economics and should be handled in an efficient way by efficient officers. It is not a thing to be put up and put down by a bunch of lawmakers who have never studied the matter seriously for many hours at a time.

GOLD CROP OF THE WORLD

Three Democrats voted for the peace resolution: Shields of Tennessee, Walsh of Massachusetts and Watson of Georgia. All of the Republican senators who were present voted in favor of the resolution. President Harding signed the measure and then the agony was over. Peace has been re-established between the United States and Germany and Austria-Hungary. Secretary of Commerce, Herbert Hoover predicts that Germany will buy 2,700,000 bales of American cotton in the next ten months, and just now the cotton market is an uppermost topic in the sections of the republic where the fleecy staple is produced. In pre-war years cotton was the gold crop of America—that is, it brought the money from abroad, new money, money that was needed in the channels of trade.—Fort Worth Record.

AN ATHLETIC CLUB

The News has heard many citizens of Ada recently express a desire for an athletic club in town. Some want golf links, some want a country club, some want an indoor gymnasium equipped with the necessary apparatus for games and individual exercise. Others still want a club which will foster clean boxing, wrestling and such sports as are engaged in and seen in the larger cities. It would be advisable to have a court large enough for basketball games, making possible a city basketball league each winter.

There is no doubt that a club of this sort would add to the life of the city and permit the participants to enjoy better health. We are too much indoors of late. Seldom does the city man give his body the outdoor exercise that nature intended. If we cannot have golf links, why not build more tennis courts and arouse interest in this game? It is true tennis is too strenuous for many, but for those who like it and have the endurance there is no game with more interest and none which calls into play more muscles.

There is little doubt, in the opinion of the News, that an athletic club here would do well. We should like to see some enterprising citizens start the move.

TAFT'S APPOINTMENT

President Harding has made mistakes and will make others, but he covered himself in glory when he appointed ex-President William Howard Taft Chief Justice of the United States Supreme Court. There may be better men for the place, but they are not in public life.

Chief Justice Taft is an ideal American, the kind who do things in an American way. A lawyer, a judge, a member of the cabinet, president, teacher and lecturer, now he will end his life of service on the highest judicial bench in the world.

Judge Taft is not as brilliant as Wilson, not as erratic and forceful as Roosevelt, not a great executive. As president he was the victim of conflicting forces which made it impossible for him to be popular. As time passes, however, it is realized more and more that his administration was anything but mediocre.

The opinions which Mr. Taft will hand down will be masterpieces of literature. He is sincere, fair, and a scholar of law.

We believe we join ninety percent of the voters in congratulating President Harding on his choice, the country on getting so able a jurist at the head of its greatest legal body, and Taft on an opportunity to round out his life in this important place. Like his predecessor, whom he himself appointed to the chief justice's bench, he is a man of the entire country, unfettered by prejudice and willing to be of most service to the greatest number of people.

MYSTERY OF THE ANIMATED SCARECROW OF CORN HOLLOW IN 6 REELS

The Foster Oil Press

Comments given below do not of necessity reflect the opinion of the News. In fact, oftentimes the opinion expressed is directly opposite to that held by the News. The opinions are given, however, because this is a newspaper.

Dancing and Thinking
Muskegon Phoenix: The Prince of Monaco has done this country some service by pointing out a reassuring truth regarding the status of the national soul.

He sees, as others do, that in America as elsewhere, there is more light-headedness in evidence, more frivolity and vice of all sorts. But along with it he observes a striking contrast. The war, he says, while making the silly people sillier, "has made the serious-minded persons more serious." Along with the frivolous wasters there are "other people hankering after science and learning more than ever before."

Thus, while the effect of war has been to shake up more froth in society, it has also shown more solid contents than people were formerly aware of.

The important thing, as an American editor remarks, is how far the one effect balances the other. The frivolity has certainly been more obvious the last year or two. Many moralizers have been almost driven to think that the results of the war were altogether bad, but gold is coming out of the conflict, after all. Even now the solid contents of society are making themselves felt. The sober, forward-looking part of the nation and mankind may not control things, and prove their control so plainly that even the frivolous will see the drift and respect it.

In The Oil Fields

"In order that the creditors and the stockholders of the Gilliland Oil company may profit to the last farthing, I am turning back the great properties I purchased the other day and will give the three receivers, Messrs. Hurley, Phillips, and Markham, an opportunity to re-assemble the properties and work out for the benefit of all concerned every dollar there is in it," so said J. B. Foster, and in saying this he must have fully realized that he was sacrificing more than a million dollars, to say the least, and this for the honor of Tulsa and the industry of which he is a member.

When Mr. Foster brought this property something like a week ago he bought it when it is doubtful if there was another man in Tulsa who could have raised the great amount of ready cash required and when he knew that the crisis demanded a radical remedy as against the danger of panic among banking houses, not in this town but in towns surrounding Tulsa where there was much of the Gilliland paper waiting to be negotiated. He did a great deed at that time and now is entitled to even a greater commendation by turning this property back because in his own hands it would shortly be worth many times its present value.

It is doubtful if in all the Mid-Continent field there is a property so well equipped or better adapted to producing oil than the Gilliland Oil company's holdings at Homer, Bull Bayou and Hayneville. Mr. Foster had been a partner in the Homer and Bull Bayou properties until a year ago last February and thus knows better than anyone the

sacrifices he is making in turning back these properties which he has just purchased, paid for and taken over. He has visited them all and there is nothing anywhere to detract in any way from their great value. He is making a sacrifice that will be talked about as long as oil is produced anywhere.

Judge Sharp, who is one of the big lawyers of Oklahoma, and for nine years a justice of the supreme court, where he made a great record and was for two years chief justice, who is one of Mr. Foster's counsel, speaking of the sacrifice Mr. Foster is making, says: "In a practice extending over 32 years, I have never known a more magnanimous and praiseworthy action on the part of any man under like circumstances. The entire transaction involving the purchase of the Louisiana and Arkansas properties of the Gilliland Oil company, in so far as the Foster Oil company is concerned, was free of the slightest imputation of fraud either actual or constructive and the splendid offer of Mr. Foster, entailing upon him as it does the great financial sacrifice, is worthy of a high place in the annals of the oil industry wherever oil men congregate."

It was announced by the receivers of the Gilliland Oil company that hereafter there will be nothing concerning the management of the company's affairs given out, unless signed by all three of the receivers. This ought to effectually shut off some of alleged reports that have been printed reflecting on the integrity of pretty much everyone involved. It was the only thing to do.—Tulsa World.

Transcontinental well in the NE

NE of section 14-5-4, was reported this morning to be drilling at 1875 feet with an 8-inch bit and making good progress.

Estimated production in the fields of the Mid-Continent at the close of last week was as follows: North Louisiana, 67,000 barrels; Arkansas, 39,000 barrels; North Texas, 193,935 barrels; Kansas, 101,000 barrels; Oklahoma, outside of Cushing, Sharnrock and Healdton, 228,000 barrels; Cushing and Sharnrock, 26,500 barrels; Healdton and Hewitt, 64,000 barrels; total 719,435 barrels, a gain of 7,000 barrels in comparison with the preceding week.

The estimated daily production of heavy gravity oil in the Gulf Coast field was 79,515 barrels. Oil and Gas Journal.

The Doan Oil company is preparing to resume operations at once at their well in section 23-4-5, where work has been shut down for some time. It was reported today. Harry Myers, field superintendent of the company, arrived in Ada yesterday and went to the well this morning. Drilling was discontinued at about 1030 feet when operations stopped.

A drowsy, half-sick, discouraged feeling is caused by a torpid liver and impurities in the stomach and bowels. Prickly Ash Bitters is a prompt and efficient remedy. Men who work need its cleansing and stimulating effect. Price \$1.25 per bottle. Sold by Gwin & Mays Drug Co.

DEMPSEY AT PLAY AFTER BIG FIGHT

Jack Holds World Title for First Time and Frolics Like Schoolboy.

(By the Associated Press)

NEW YORK, July 5.—That old toy, the heavyweight championship of the world, has been enjoyed by several, but this is the first time Jack Dempsey, its present holder, has had an opportunity to enjoy it. With the abandon of a school boy he is frolics about New York, vacationing with all the enthusiasm of a youngster with a new pair of boxing gloves.

Since Jack stepped into the ring at Toledo two years ago and unhooked the title from Jess Willard, he has been a busy man. There has been no time for play in his program, with training for bouts to defend his title and busy in motion pictures or theatrical enterprises.

Now that the last contender in the person of Georges Carpentier, the little, keen kept from annexing the title, he has cast worry to the winds and is playing. He will continue this in and about New York for a few days but in about a week will be on board a train westward bound. In Salt Lake City, Utah, his destination, Mrs. Celia Dempsey, his mother is waiting for him.

Dempsey declared that he was anxious to get back home and especially anxious to see his mother.

A coated tongue, bad breath, dizziness and a clogged condition in the bowels can be quickly relieved by using Prickly Ash Bitters. It is a man's remedy for such ailments. Price \$1.25 per bottle. Sold by Gwin & Mays Drug Co.

CHICHESTER'S PILLS

Frames Should Fit The Face

Correctly fitting frames are almost as important as correctly ground lenses. Therefore we take particular pains to make sure that the frames fit the face perfectly.

The center of the glasses should come exactly opposite the pupils of the eyes. The glasses should not be too wide or too narrow. The bridge should fit the nose so well that wobbling will be impossible.

We are experts in the proper fitting of glasses and our skill is at your service. If the glasses you now wear do not fit perfectly bring them to us for adjustment.

The romance began in a Salvation Army hut in France. Miss McIntyre's father is head of the New England district of the Salvation Army.

ADA WINS DOUBLE IN HOLIDAY TILT

Wilson Nine Weakens After Stubborn Game Sunday and Drops Series.

Taking both of a series of two games played here July 3 and 4 with the Wilson and Company team of Oklahoma City, the Ada ball club added two more victories to its list, defeating their third Oklahoma City club. The game Sunday was a pitcher's battle, the final score being 1 to 0. The visitors were able to score twice in the July 4 game, both counts being made after numerous errors.

Lefty Waner was mound man for the Ada team Sunday, allowing only four hits. Both teams were at their best. Snodgrass of Oklahoma City allowed four hits also. Two hits in a row and an error allowed Ada to make the only score of the game. Rutledge crossing the plate in the second. A double play made by P. Waner to Young to Rutledge was the feature of the game, this being the first time that this play has been made on the Ada diamond this season. Wilson players said this was the first time this season that they had been defeated by a left handed pitcher.

Young knocked Homer in the first inning of the Monday game, running in three scores. This is one of the few home runs that have been made here this season. With three in the first, Ada scored almost at will, making a total of 10 runs. The visitors scored once in the 7th when L. Kelly was walked, advanced to third on a hit, and scored when Osborne flew to McMillan. Their second score was made when almost every man on the Ada team took a turn at throwing the ball around.

Ada plays at Chandler next Sunday and Chandler plays here July 17.

ASKED TO CONDUCT PROFITEERS' PROBE

Henry L. Stimson.

Henry L. Stimson of New York, secretary of war in President Taft's cabinet, has been asked by Attorney General Daugherty to conduct the inquiry the government is to make into war grafters and profiteers.

FIVE PLEAD GUILTY ON DRUNK CHARGES MONDAY

Hearing of five cases, all on charges of being drunk, was the only thing that marred the holiday stillness yesterday in justice of the peace officers of the city. They were those of J. W. Tarwater, Fred Arnold, Lean Lemmon, Clarence Kendall, and Luther Pribett, arrested near Allen by members of the county sheriff's force. All entered pleas of guilty when brought before Justice of Peace Fisher and were fined \$10 each and cost.

Complaints that the men were drunk and boisterous on the roads were filed against them.

Firms Is Firms
No wonder a certain grocery store in Klondike, Ohio, is always crowded with women. I. N. Tice runs the place.—Exchange.

CITY PASSES HOLIDAY WITHOUT AN ACCIDENT

With not a single accident to mar the peace of the day, Ada passed one of her quietest celebrations in years yesterday.

The three bathing pools, city lake, Bob Ford's, and Glenwood Park, were crowded in the afternoon. Many picnickers took advantage of the holiday and spent the entire day at these and other near by places.

Another evidence of a quiet Fourth was the absence of the usual list of week-end law breakers. Not one person was arrested for hurting the peace in Ada during the week-end. Police stated that the streets were almost deserted and no disturbance has been reported from any section of the city.

Fire works were in evidence during the day but no casualties have been reported.

MARRIAGE LICENSE

Marriage license business at the county court house took an increase through the holidays, six permits being issued. They were as follows:

Winford Setterfield, 21, Steedman, and Miss Cora Reece, 20, Steedman.

Roger Smith, 21, Ada, and Miss May Riner, 22, Wetumpka.

Ezra Lynn, 21, Vanoss, and Miss Johnnie May Overstreet, 19, Vanoss.

Andrew Blue, 22, Stonewall, and Miss Odessa Morgan, 16, Ada.

James Runels, 41, Ada, and Mrs. Sarah Stewart, 47, Ada.

BETTER STREETS NEEDED IS IDEA OF LOCAL FIRMS

Paved streets, or streets put in a better condition than they are, seems to be the greatest need of the city of Ada, according to opinions given by residents of the city. Following are some opinions given on the question submitted today:

W. J. Coffman, member of the Coffman, Bobbitt and Sparks Hardware Company—Ada needs paved streets more than anything I can think of. Paved streets, graveled streets, or streets made passable at all times is the paramount need of the city and we should get them before anything else.

A. L. Bowles, Real Estate and Oil Properties—We need more pep. If the citizens would co-operate better and show a little more pep in the things they undertake, I believe that all these needs would be secured without much trouble.

Ralph McMillan, of the Postoffice News Stand—I think paved streets are more important than anything else at this time. Ada is worse off than any other town of its size in the state so far as paving is concerned.

FUNERAL FOR PIONEER OF COUNTY TODAY

G. W. Fountain, one of the pioneer citizens of Ada, a Confederate veteran and a well known citizen of the county, died at his home, 420 West Fourth street, at 9 p. m. Monday afternoon. He was 97 years old.

Mr. Fountain leaves relatives at various parts of the state; a daughter at Ardmore being the nearest relative living. Funeral services were held this afternoon with Rev. R. M. Taylor of the Nazarene church in charge. Interment took place at Rosedale.

\$6 Added to Church.

Eighty-six additions were made to the Baptist church in the recent two-weeks' meeting. It was stated this morning by Rev. C. C. Morris, pastor. Nearly \$800 was paid the evangelist and singer and no public collection was taken. All funds came in by free-will offering through envelopes.

Above \$500 was raised for incidentals, making more than \$1000 raised in all.

Association to Meet.

The Cemetery Association will meet Wednesday afternoon at 4 o'clock at Mrs. Brown's office, according to a call sent out this afternoon by Mrs. W. B. Jones, secretary. A full attendance is desired.

Cheer Up.

We do not know much, but we do know that if you are healthy you haven't any kick coming.—Luke Meluke. And yet some big husky guy who never had an ache or a pain and doesn't know whether he has a stomach or not, imagines he would be terribly happy if he was in the place of some dyspeptic old greaser who can't walk and has to ride around in a 12-cylinder automobile.—Dusty Miller

The Chorus Girl

A chorus girl's sure hard to gauge when you see her work on the stage.
You think she can boast
Of 16 at most.
But 60 is more like her age.

FARM HAND CONFESSES RICH EMPLOYER HELPED HIM ROB NEARBY NATIONAL BANK

Montgomery North, left, and Charles Welsh, the farm hand, who accuses North of complicity in the crime.

Montgomery North, young farmer of Gridley township, near Bloomington, Ill., was arrested two days after the daylight robbery of the State National bank at Hudson, Ill., when Charles Welsh, his farm hand, implicated North in the robbery. North says Welsh convinced him that the robbery could be handled without a chance of detection if North's high-powered car was used.
